Alternatively you can contact any police station within Europe.

CJ lives and works in Austria close to the German border, and speaks almost fluent German.

He disappeared during a normal working day on Saturday the 31st July around 12:30pm in Ruhpolding, Germany.

It is possible that he could have crossed borders within Europe. His family live in Langar, Nottinghamshire where he visited only a couple of weeks ago.

CJ suffers, and is being treated for Bipolar and may be suffering from memory loss and confusion. He is generally very happy and chatty and thrives on contact with others.

He has lots of friends and work colleagues who speak to him daily, and he has never been out of contact with them for more than a few hours.

This is very unusual for CJ so his family are frantic with worry.
